RE: Pending (Confidential)
Uranium Operation
Sec. 2, T. 31 S., R. 25 E.
San Juan County, Utah

Dear Dianna:

As we discussed over the telephone today, the concept for disposal of waste rock produced at Minerals Recovery Corporation's proposed operation in Section 2, Township 31 South, Range 25 East, San Jaun County, Utah, into the old abandoned copper pit in the SW1/4 of Section 36, Township 30 South, Range 25 East, involving State Mineral Lease ML-17661, is an acceptable approach to both this office and the Division of State Lands and Forestry (Mr. John Blake February 9, 1983 telephone conversation). Details for implementation of this activity will be addressed in the mining permit application prior to final Division approval.

I look forward to receiving MRC's Notice of Intention and Mining and Reclamation Plan in the near future and the subsequent site visit to take place during the Division's review process. Thank you for your continued cooperation.

Sincerely,

JAMES W. SMITH, JR.
